R.Divya

Graduate Software Engineer (2026) Integrated B.Tech + M.Tech – Software Engineering | VIT Vellore

rdivyavit2003@gmail.com | 9032237164 | LinkedIn: linkedin.com/in/r-divya-8a9a03357

GitHub: github.com/divyarvit

PROFESSIONAL SUMMARY

Final-year Graduate Software Engineering student (2026) with strong analytical skills and a solid foundation in Data Structures, Object-Oriented Programming, and SDLC. Hands-on experience in application development, data analysis, and process-oriented problem solving through academic and project work. Effective communicator with the ability to collaborate with stakeholders, understand business problems, and deliver practical, technology-driven solutions in a professional environment.

EDUCATION :

Vellore Institute of Technology (VIT),

Integrated Dual Degree (BTech + MTech) in Software Engineering | CGPA: 8.31/10	2021-2026
Sri Vivekananda College -(12th Grade) | Score: 930/1000	2019-2021
Camford English High School - (Class 10) | Score: 100	2018-2019

TECHNICAL SKILLS :

Programming: Java, C++, Python (Basics), SQL | Web: React.js, HTML, CSS

Core CS: Data Structures & Algorithms, Object-Oriented Programming, SDLC, DBMS, Data Analysis, Machine Learning , Software Testing, Operating Systems, Networking, IT Security, Agile Fundamentals, Software Design, Cloud Computing, Data Visualization

Tools: Microsoft Word, Excel, PowerPoint ,VS Code, Power BI, Figma, GitHub, Jupyter.

Soft Skills: Analytical Thinking, Communication (Written & Verbal), Stakeholder Collaboration, Time Management, Adaptability

PROJECT EXPERIENCE

Sign Language Detection Using AI.

- Developed a real-time AI-based gesture recognition system using MediaPipe and OpenCV to address communication challenges.
- Achieved 85% accuracy, demonstrating effective data-driven problem solving and solution validation.

Breast Cancer Prediction Using Data Mining.

- Built a machine learning diagnostic model using SVM, KNN, and Decision Trees for early disease detection.
- Attained **85% prediction accuracy** through structured data preprocessing and feature selection techniques.

Smart Dustbin Using IoT.

- Designed an IoT-enabled smart waste management system with automatic waste detection and real-time monitoring.
- Reduced manual waste checks by **70%**, improving process efficiency and operational effectiveness.

Hostel Help Line Management System.

- Developed a web-based complaint management application with role-based dashboards for efficient issue tracking.
- Improved transparency and significantly reduced issue resolution time.

Sentiment Analysis on Flipkart Product Reviews.

- Implemented NLP techniques including tokenization, TF-IDF, and stop-word removal for sentiment classification.
- Generated actionable insights to support data-driven decision making.

PROFESSIONAL & COLLABORATIVE EXPERIENCE

- Experience working on structured assignments with defined timelines, ensuring quality and attention to detail.
- Collaborated with peers and stakeholders to analyze problems and deliver practical, technology-driven solutions.

CERTIFICATIONS:

- Microsoft Azure AI Fundamentals (AI-900) – Microsoft, July 2024
- Data Analysis Virtual Experience Program – Deloitte, April 2025
- Exploration of Data Analysis Certification – Infosys Springboard, October 2024

AVAILABILITY & WORK FLEXIBILITY:

- Willing to work in shifts as per organizational requirements
- Comfortable working independently and as part of cross-functional teams
- Highly adaptable to new tools, technologies, and professional environments
